WorldForum 2016:

A Unique Gathering of Invited Child Welfare Leaders Worldwide

Child Welfare leaders throughout the world are faced with increasing challenges to carry out their unique organizational mission with limited resources, increasing need for advanced technology and use of social media, a new workforce and ever complex societal and family dynamics. WorldForum 2016 provides an opportunity for CEO's to think outside the box for solutions and strategies which enable them to achieve their organization missions while embracing technological and programmatic advances.

The event will take place in Santa Fe, New Mexico, an ideal setting for idea exchange and relationship building. The event is scheduled to take place immediately before the Albuquerque International Hot Air Balloon Fiesta so attendees will have the opportunity to take advantage of that event if they wish.

To request an invitation to WF2016 please complete the attached form and submit to us. We look forward to your anticipated participation and contribution!

The International Forum for Child Welfare (IFCW) is an "organization of organizations". The International Forum for Child Welfare is an international non-governmental organization dedicated to the promotion of the rights and well-being of children globally which recognizes the contribution of effective leadership in the challenge of making the world a better place for children.

The IFCW WorldForum is convened regularly -- an event where the executive leadership of established and emerging national non-governmental child welfare organization's mutually share current successes and challenges and receive capacity building (how to) technical assistance from each other to strengthen and enable each NGO to better implement the UN Convention on the Rights of the Child in its own country, culture and society.
